- Bangla

ABOUT ME

I'm a motivated and aspiring web developer with a solid grasp of HTML, CSS, Bootstrap, JavaScript, PHP, Laravel, React, and Vue.js. Eager to launch my career in web development, I'm committed to staying current with industry trends and best practices. My focus is on crafting user-friendly, visually engaging websites. I'm enthusiastic about contributing my skills to create dynamic web solutions.

PROJECT

● Point of sale (POS)

Module: Dashboard | Admin | Reports | Profit | Loss and Daily report.

Tools & Technologies: Laravel, ajax, jQuery, MySQL

My store management project leverages the full-stack capabilities of Laravel, incorporating PHP for the backend and Blade templating for the frontend. Laravel's robust features facilitate seamless database interactions with MySQL, ensuring efficient inventory management, sales tracking, and a user-friendly experience for effective store administration.

● Store Management Project

Module: Dashboard | Admin | Sales man role | Reports | Profit | Loss.

Front-End: HTML, CSS, Bootstrap, JavaScript .
Back-End: PHP .
Database: MySQL.

Our store management project combines HTML, CSS, Bootstrap, JavaScript, PHP, and MySQL to create a secure, scalable, and user-friendly system. Bootstrap ensures a consistent and appealing interface, while JavaScript adds dynamic features. PHP manages server-side processes and communicates with MySQL for efficient data handling, providing a seamless solution for store management.

● Restaurant Management Project

Module: Dashboard | Admin | User | Reports | Profit | Loss | Booking | Invoice

Front-End: HTML, CSS, Bootstrap, JavaScript, React.js .

Our restaurant management project utilizes HTML, CSS, Bootstrap, JavaScript, React.js, PHP, and MySQL for a visually appealing and dynamic interface, ensuring efficient and secure data processing, making it an ideal solution for streamlined restaurant operations.
